Unified Program Newsletter – January 2022

State Water Board

UST Facility Compliance Inspection Reporting Deadline

The State Water Resources Control Board (State Water Board) sent a letter to the Unified Program Agencies (UPAs) regarding the annual underground storage tank (UST) facility compliance inspection reporting requirements. California Code of Regulations, title 23, division 3, chapter 16 (UST Regulations), section 2713(d) requires the UPAs to report to the State Water Board no later than January 31st each year, the number of UST facilities where a compliance inspection was not performed over the previous calendar year.

(https://www.waterboards.ca.gov/ust/docs/compliance-inspection-reporting-and-enclosures.pdf)

To assist UPAs in verifying the accuracy of UST facility compliance inspections, the State Water Board and the California Environmental Protection Agency created the UST Routine Inspection Frequency search tool. UPAs should utilize this tool early to identify those facilities where a compliance inspection has not been performed during the 2021 calendar year, or to ensure the correct data has been properly uploaded to California Environmental Reporting System (CERS). This report will assist UPAs in identifying missing inspections and/or inaccurate data. State Water Board staff strongly suggest UPAs run the CERS UST Routine Inspection Frequency search now. As a reminder, virtual or desk audit UST compliance inspections without an on-site element do not satisfy the UST compliance inspection provision of the Energy Policy Act.

(https://cersregulator2.calepa.ca.gov/Reports/USTRoutineInspectionFrequencySearch)

For more information regarding compliance inspections reporting requirements, contact:
Mr. Tom Henderson at (916) 319-9128 or Tom.Henderson@waterboards.ca.gov, or
Mr. Johnny Wales at (804) 852-7274 or Johnny.Wales@waterboards.ca.gov.
Site Plan Template Available

The State Water Board has provided an accessible site plan template for owners and operators to utilize for the required CERS upload. While owners and operators are not required to use this specific form to upload facility site plans to CERS, the State Water Board has created it as a courtesy. Microsoft Word and Adobe PDF version of the documents are available on the Underground Storage Tank Forms webpage under the titles “Site Plan for CERS Upload.”

(https://www.waterboards.ca.gov/ust/publications/forms.html)

For additional information regarding the site plan template, contact:
Mr. Tom Henderson at (916) 319-9128 or Tom.Henderson@waterboards.ca.gov, or
Mr. Austin Lemire-Baeten at (916) 327-5612 or Austin.Lemire-Baeten@waterboards.ca.gov.

Report 6 Deadlines

State Water Board will soon distribute the Report 6 forms and instructions for the July 1 through December 31, 2021, reporting period. The completed Report 6 documents are due to the State Water Board no later than March 1, 2021. Consistent with the last several reporting periods, UPAs will continue to report field constructed tanks, facilities with USTs that have received a red tag, and facilities that have abandoned or temporarily closed USTs.

For additional information regarding Report 6 requirements, contact;
Mr. Steven Mullery at (916) 341-5850 or Steven.Mullery@waterboards.ca.gov or
Mr. Tom Henderson at (916) 319-9128 or Tom.Henderson@waterboards.ca.gov.

Final UST Closure Commitment Plan Webinars

As a reminder, the State Water Board will be hosting one last remote webinar on the single-walled UST Closure Commitment Plan that was issued to owners and operators of single-walled UST systems on October 27, 2021. These plans were issued to call attention to potential obstacles and bottlenecks that owners and operators new to removing UST systems may not be aware. Reviewing the contents of the plans is encouraged to avoid scheduling conflicts and supply chain issues as the December 31, 2025, deadline for removing single-walled systems approaches. The workshop will be held on Microsoft Teams. This will be the same information that was presented during the December webinar. The final webinar will be held on:

- January 13, 2022, from 4:00 p.m. to 6:00 p.m.

For additional information regarding UST Closure Commitment Plans, contact:
Mr. Johnny Wales at (804) 852-7274 or Johnny.Wales@waterboards.ca.gov, or
Mr. Tom Henderson at (916) 319-9128 or Tom.Henderson@waterboards.ca.gov.

Cal FIRE OSFM

CERS – Aboveground Petroleum Storage Act (APSA) Documentation

The APSA Documentation section in CERS is for the tank facility statement reporting requirement (Health and Safety Code, Division 20, Chapter 6.67, Section 25270.6) or a local reporting requirement. Contact your local Unified Program Agency if their governing body has adopted additional local reporting requirement for the APSA Program.

The APSA Documentation section does NOT request the submittal or location of the Spill Prevention, Control, and Countermeasure (SPCC) Plan. An SPCC Plan is NOT required to be uploaded to CERS and, therefore, an SPCC Plan should NOT be uploaded to CERS.

An APSA tank facility must keep a copy of their SPCC Plan onsite if the facility is normally attended at least four hours per day, or at the nearest field office if the facility is not so attended.

If a tank facility is exempt from preparing an SPCC Plan because it meets certain conditions under APSA, the facility should NOT select ‘Exempt’ in the APSA Documentation section in CERS.

A facility meets the tank facility statement reporting requirement by either (1) uploading a tank facility statement through the APSA Documentation section or (2) submitting a complete Hazardous Materials Business Plan (HMBP), which includes the Facility Information, Hazardous Materials Inventory, Site Map, and Emergency Response and Training Plans.

When submitting an HMBP, the facility may select the “Provided Elsewhere in CERS” option and the “Hazardous Materials Inventory” option in the APSA Documentation section in CERS.

The following APSA Documentation options should NOT be selected: Public Internet URL, Provided to Regulator, Stored at Facility or Exempt.

If you have questions, contact OSFM staff at cupa@fire.ca.gov.
